### \*Language Arts\* \*Science\* \*Social Studies\*

We continued with our study of space and the solar system. We 'worked' daily at Mission Control and held several successful space walks from our space ship. We worked with researching planets and each "K" Kid wrote about his/her favorite one. We

used a 4-square writing method. We wrote 3 facts and one 'compliment' sentence. This is a simple way to begin writing paragraphs. We read about the sun, the moon, and constellations. We created a model of the solar system and our own constellations.

### \*Next Week\*

Colors/Light

Monday... Computer Lab/Library

Tuesday... PE/Music

Wednesday... Computer Lab

Thursday... PE/Music

Friday... Computer Lab/Library

### \*Math\*

We wrapped up our addition unit in math and are moving on to subtraction. The "K" Kids really demonstrated a good understanding of addition and writing equations. Switching it up with other signs is challenging!

I created new math assignments for addition and a variety of math games on our Pearson math site. Your child can log in on our class home page by clicking on the computer icon. Let me know if you need a copy of the login and password for your child. This is a fun way to practice exactly what we're learning at school!

### \*Dress for Recess\*

With the anticipation of warmer weather, we will be going outdoors to recess more often. Please make sure that your child is prepared to be outside for 15+minutes. Our playground often has a lot of wind and feels colder than the actual temperatures. Thanks for your help!

\*Bear\*y Special Person\*

Buddy

Sincerely,

Mrs. Brockhaus, Mrs.

Moneymaker, Mrs. Day and the

"K" Kids
